ENERGY STAR<sup>®</sup> certification is awarded to products designed to reduce energy consumption and utility costs.

To qualify, gas/electric, iHybrid, air conditioner and heat pump packaged systems must have a Seasonal Energy Efficiency Ratio (SEER) rating of 14.0 or higher and an Energy Efficiency Ratio (EER) of 11.0 or higher. Packaged heat pumps must also have a Heating Seasonal Performance Factor (HSPF) of 8.0 or higher.

Split system air conditioners and heat pumps must have a 14.5 SEER rating or higher and an EER of 12.0 or higher. Split system heat pumps must also have an HSPF of 8.2 or higher.

NuTone units offer a 10 year limited warranty on all parts when registered. Plus the NuTone Quality Pledge on select models, which states if within the first 10 years the compressor or furnace heat exchanger fails NuTone will replace the entire unit, registration required. Air handlers and coils carry a 5-year all parts limited warranty and when installed with a matched outdoor unit, will carry the outdoor system warranty. J model air conditioners carry a 5-year all parts limited warranty and a 5-year compressor warranty. See warranty for details.
